

Case Study:

Barcode & Time Tracking

Gillette World Headquarters

Objective:

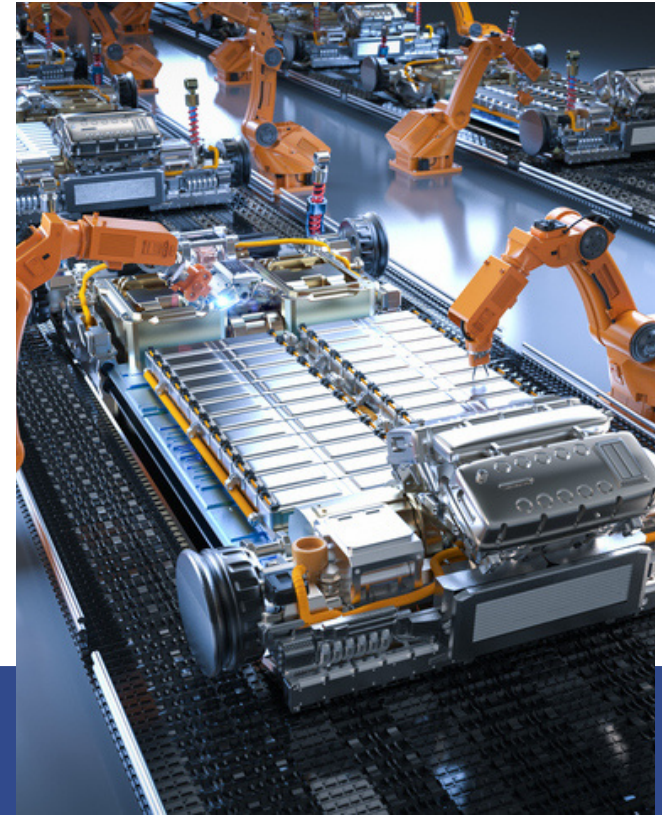

- Manage timing of Restroom Operations staff to allocate resources more appropriately

Target:

- Allow employees to clock in electronically to track start and end times
- Generate communications and tracking reports and alerts in real-time

Results:

- Increased employee productivity by 23% in 3 weeks
- Reporting results provided effective reallocation strategy
- Improved client satisfaction

“We were looking for a way to increase productivity in serving our restrooms in accordance with usage and Pritchard delivered a fantastic solution”

Property Manager - Gillette
